I. OPEN DISASTERS/EMERGENCIES:

II. WEATHER:

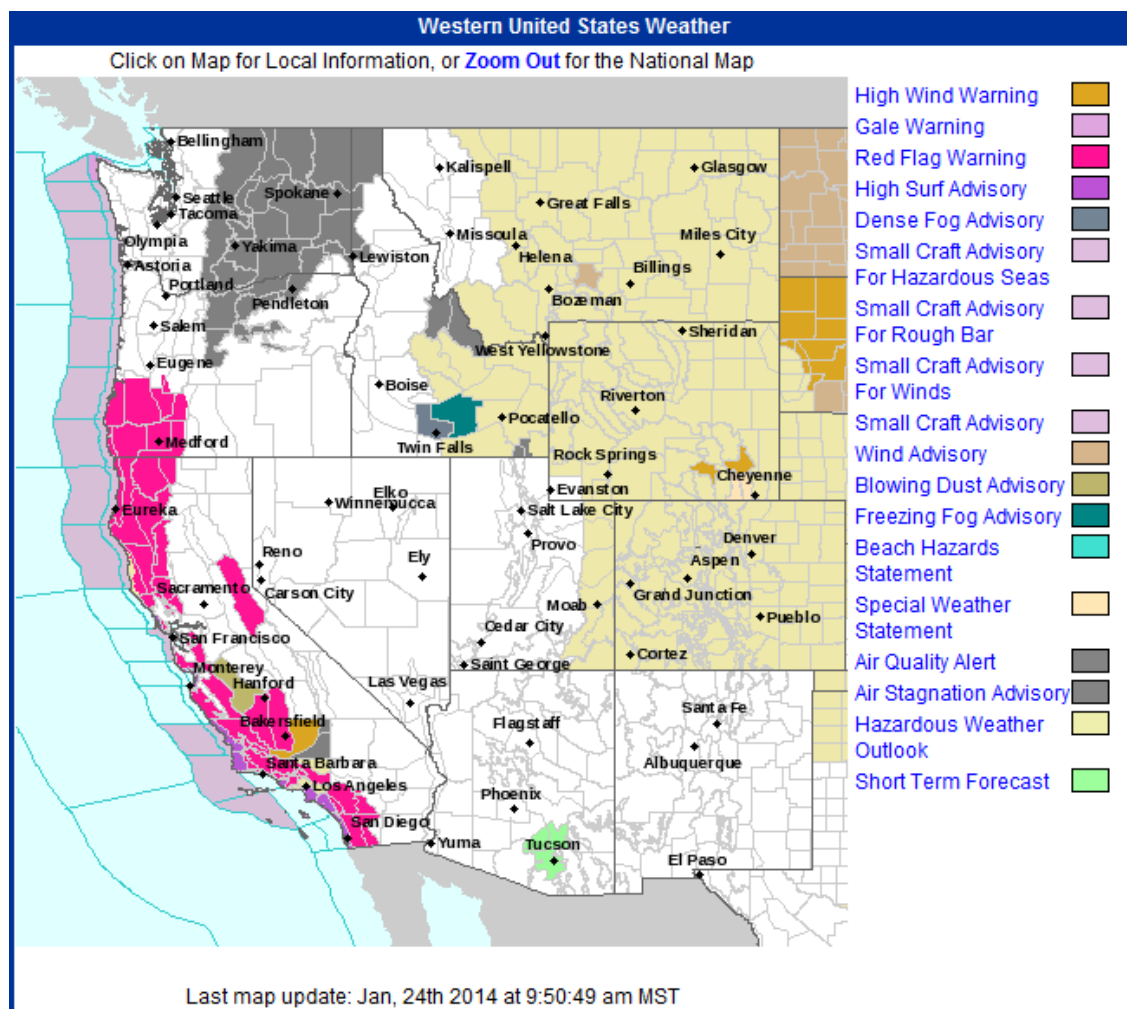

Northern California

Dry and stable weather conditions will persist through the weekend for the North Coast as a strong ridge aloft dominates the ridge will shift slightly to the east early next week. Red Flag conditions will persist in the Coastal Mountains and Sierra foothills through this morning. By Friday afternoon interior winds should decrease with high pressure rebuilding aloft. A weak low pressure system is forecast to move across the Sacramento area through Friday with breezy winds and slight cooling.

Southern California

Red Flag conditions will persist for major portions of southern California through this evening. In the Southwestern Coast, the shallow marine layer will bring areas of low clouds and locally dense into early today. A very slight cooling trend, increasing clouds, and local breeziness are expected today in the Southeast. However, by the weekend the resumption of abnormally warm temperatures and mostly clear skies will return. A high in the pacific will advance over the region next week for less cloud and temperatures well above normal.

IV. SIGNIFICANT ACTIVITY:

State

Drought 2014

Governor Brown Declares Drought State of Emergency

On January 17, 2014, with California facing water shortfalls in the driest year in recorded state history, Governor Edmund G. Brown Jr. proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions.

In the State of Emergency declaration, Governor Brown directed state officials to assist farmers and communities that are economically impacted by dry conditions and to ensure the state can respond if Californians face drinking water shortages. The Governor also directed state agencies to use less water and hire more firefighters and initiated a greatly expanded water conservation public awareness campaign.

Situation:

The lack of winter rain and snowfall has resulted in drought conditions throughout the State. Some local jurisdictions are implementing mandatory conservation orders. The Governor has established a Drought Task Force to oversee and coordinate the response to this event.

The Task Force continues to be in very close contact with local jurisdictions and state agencies to monitor the health of state's water, agriculture, and economy.

For water conservation tips, visit: <http://saveourh2o.org/>

Drought Resolutions/Proclamations

01/07/14 - Mendocino County – no request for state assistance at this time

01/08/14 – City of Willits, Mendocino County – no request for state assistance at this time

01/14/14 – Brookside Township, Mendocino County – An unincorporated area near Willits, Mendocino County, enacted mandatory water restrictions and declared that a local emergency and imminent threat of disaster due to drought conditions. Regional Staff is gathering more information and making an assessment.

01/15/14 – Kern County – Requesting the State to facilitate the transfer and distribution of emergency water supplies to Kern County as well as coordinate with other State and Federal agencies to assist water suppliers and identify risks to water supplies.

01/17/14 - Santa Barbara County has declared a local emergency due to the drought conditions and projected driest year on record. There is no request for State assistance.

Influenza, January 2014
